**SUBMISSION OF ARTICLE 19 AMENDMENT**  
**AND RESPONSE TO WRITTEN OPINION OF THE ISA**

Sir:

Applicant is herewith submitting an Amendment of the claims of the above-captioned PCT patent application under Article 19 of the Patent Cooperation Treaty. The instant paper is the letter that is to be submitted with the Article 19 Amendment; it also serves as a response to the Written Opinion of the International Search Authority. All 18 claims have been amended, none have been deleted. There were originally 18 claims, and there are now 23 claims. Specifically, all of Claims 1-15 correspond to original Claims 1-15; amended Claims 16-20 correspond to original Claim 16; amended Claim 21 corresponds to original Claim 17; amended Claims 22 and 23 correspond to original Claim 18. The claims originally were on pages 9-12 of the application, and they are still on pages 9-12; substitute sheets are submitted herewith. The claims have been amended to correct previously multiply dependent claims depending from other multiply dependent claims. No such multiple-multiple dependency exists in the amended claims.
